

2024-2025 Cost of Attendance

Cost of Attendance is the total estimate of what it costs the student to attend the school for one academic year. Cost of Attendance includes Direct Costs (Tuition & Fees – what you pay directly to the school), and Indirect Costs (Living Expenses including Housing, Food, Transportation, Miscellaneous Personal Expenses, Loan Fees, and Personal Therapy for the ATCN, CN, and ATCP MA programs).

The 2024-25 Cost of Attendance budget is based on local and national averages. An individual student’s expenses will vary depending on their local cost of living; students should be mindful to only borrow what they need. Students can contact the Financial Aid Office for a detailed breakdown of their individual COA.

Students with education-related expenses beyond their provided COA budget can request a Cost of Attendance increase by submitting documentation; contact the Financial Aid Office at financialaid@swc.edu for more information.
