Quimby Metaphysical Libraries

FORWARD

These two inspirational classes were given through the service of Dr. Neva Dell Hunter. She could attune to a higher faculty of herself and in that activity relay, through a spoken clarity, wisdoms from a spiritual realm embodying the teachings of the Christ. Commonly these teachings would be identified as the inner consciousness of Dr. Ralph Gordon - a being of Holy purpose from the School of the Divines.

These two classes were given in order to establish and share the vision and dedication of a plan for new age education. The first dedication was for the Quimby Metaphysical Library, given at 3:05 p.m., August 11, 1963. The second dedication was for the Quimby College, given at 1:53 p.m., September 23, 1976. Both dedications were given as a future action in the Tularosa Basin, New Mexico.

DEDICATION OF THE QUIMBY METAPHYSICAL LIBRARY

(Dr. Gordon): In bringing this particular portion of man's library, to be utilized for the . . . interests of the community, but above all to be here as a testimonial to the Saints and Sages of the Ages, we do not speak of this as a memorial library to P. P. Quimby. It is known as the Quimby Metaphysical Library, because a name is a symbol in your world for something that it must be attached to. Unless we have the name of each one of you we could not have, beloved ones, the power or the wisdom of your specific location, as we could not locate you without your own numerical code.

Under great power and Light, the collections of this particular library will be a part of that which will be salvaged when a portion of the Earth has decided that it is weary and wishes to leave behind and be washed anew and purified by waters again, as nations have been before. But the Earth that is presented here upon this ground speaks out for the truth and the directiveness and the eternality. It so makes its statement in time that it has moved, it has been purified by the waters of the ocean. It has been irrigated by the Sun of great force and it is to be stabilized for eternities and eons of time.

Now it is true that libraries grow moldy with years. The words become outdated because man has found the new approach. The books, however, that have been collected within the library that shall, or the walls of this particular library, shall never be outdated, and all that are shall be culled from their midst and sent on through time and its spacelessness. This is not a place where novels dwell, although life itself presents a great novelty to all of you for moments at a time. But love has a way, and so the works that shall be retained in the honor of this room are only those that are endless . . . The inspiration shall never end of which they have and do create upon the patterns of time. The Light shall never fail and you shall groom yourself to read the words, and they will be as fresh as they were a thousand years ago.

Now it is brought here, because as other libraries of note are herein recorded, so that it will be protected from the savagery of nature's propelling forces as she dwells in other states of realization. And when we chose the host and hostess, the adopted parents of this particular Library of Light (whose home you are now standing within) known as Mary Elizabeth and Steven Fred Broscoff, they saw the vision; and it was their particular cause and their particular responsibility, as it will be the responsibility of their sons and daughter to carry on down through time, to maintain it until the usefulness of that which it contains has been fulfilled. You who go back to the Illiad, you who are striving back to find and search into the magnitude of the power that was given by the Atlantean and the Lemurian concept know that if you could only know the secret pact between the ages how graciously, how wonderfully it would be to testify to the

mental truth that you feel for evermore close to Thee. But, the age that is to follow will have dedicated within its heart and possibly colored by the very sand of time, because the sand shall be dry and shall preserve rather than destroy.

This is why we wished for you as individuals to partake of the sands of the desert, the sands of the riverbed of beautiful Atlantis. And as the angry waters left their stillness behind they seemed to push through eons of time this valley. They played upon the harpsicord of the mountain, and when you come down you will see the walls. You will feel the great walls therein that were made around a portion of the Atlantean continent. But those walls now shall ever be a protector for those who dwell within the valley of this as man speaks of, "The Land of Enchantment."

It took a great deal of planning by the Masters of intensive force to direct each of you, who are holders of keys to this valley, to be here. And from this place you will be visited upon by planetary members. They will walk in and through the households of your time as if they had always lived in this valley. Because you who are dwellers here, who are protectors of its right and enhancers of its future, know full well that herein lies the dry sand, the penetrating breeze, the high ridge and the clouds. Herein will dwell I do not know if this is the time to make this prophesy or not, but we shall make it because herein will dwell, no doubt, the first interplanetary colony. This will be their Mayflower Compact. This will be the land that they shall look up and see. They shall bring to the very Light of this land the scientific wisdom, the spiritual flow, the physical individual that will go from this particular colonization and will again re-enter the world much as you re-entered into the kingdom that was known then by the Red Man, not through the force of battle or fighting but through the force of understanding, wisdom and love. And if we could say to you that before the New Age is fully deemed a part of this (this is 1963) approximately thirty-seven years from this day if you would like to come back to the wonderment of it all, the colonies of this valley will have changed but the books that are brought here shall be still in usable state, and they will be the history of your world and your activity. They will tell the story of the fact that you have walked here.

Your name is being recorded upon the magnetic flow. It will all have to be transcribed, and the story of this conference will go into a book made by you, giving a thumbnail sketch of all of you who are here that they who come after these shall know. So now is the time that you speak your name upon the framework of this recording, to know that you were here to hear the word spoken, that you were here while the dedication of the Master's work of yesterday is going to be at hand for all of those who will come and say, "We understand." So we want the voice loud and clear, and possibly the Recorder of this unit will pass among you.

You may mention your name and your locale because what is played back a few years hence, your locale may not be there and yet your word will be proof that you gave a location. We do not bring you the doom of indifference. We only say that all things clear away and that cities are made upon cities. If you could dig beneath the sands of this particular locale, you would find the pyramids of old, that they dwelt in, similar to those that you would find in the very heart of Mexico. If you could go below that you would find the shells of boats. You would find the remnants of the Great Sea. However, the surface of Light has borne her record and taken the very power of the mineral content of her ocean body and made it into sand and soil . . .

It is going to be very interesting to see what the future residents of this valley will think about you. But you are putting, at least, your skulls in word rather than in sand

Now, when the world that you are waiting for comes upon the land, and if you incarnate and come back to this locale if that so is in the plan . . . or if you have translated as many of you are aiming for this moment and can move about into the atmosphere that you have overcome. Now the plan is this . that if you can build your receptacle or bodies to be tolerant to the vibratory frequency that will come unto this valley (now, remember this), the frequency is going to change and each one of you will see it. In order to miss the missile you will have to lessen the density of your physical vehicle. And as this density and the molecular structure of your body is changed, and great potentials of the dawning Light of the future, the healing efforts of wisdom, shall come through the Channels that will be delegated and are delegated here to serve you . . . the structures of your bodies will change. This is the great plan. You will be able, if you are so attuned, to move in and out of the physical body at your will. You will build a body that can foresee, can put away . . . you can find and bury yourself in gypsum if you wish . . . it will preserve it. No decay could actually set in. And you may run away and play in another land and come back and pick it up. Man might not understand this at the moment but this is only in part what you as individuals are preparing to do. When someone has said that you come as one individual and return as another, beloved ones, no truer words were ever given. You will take on the respectabilities of names according to needs of the body that you are wearing at the time that you so desire to be in it.

Now this does not mean that you will have to clothe and shelter and be a polygamist to your own self. But it does mean that this valley will be the home of the first newcomers . . and this is a word, not a person . . . this will be the home of the first souls of consciousness that will come and dwell among you. They will need to be brought into an essence of awareness as a child has need to be brought into an essence of awareness. They may wish to preserve their time by reviewing the libraries

specified that is utilized here for their past recall. But you, many of you in this room, will return many times to this valley upon a broom. We will call it this because you have an inclination now to believe in the witchery of life. Now, it isn't "witchery" it's "whichery." And you will be able instantly to transform yourself and be here. This will be your practice ground for Translation! And one of the solidifiers of knowing that you can do it is the fact that you may come into this room through the doors or windows or the walls it matters not, and find here that which you remembered because you were here today.

Now, thousands of souls about the world will have this privilege. It sounds to you, as we are looking over the auras that you are transforming from your mental Radars, as if you believe this is a fantastic tale, woven only to appease you and to let you see the forwarding Light of your own grace. But, beloved ones, greater words were never spoken than we are relating to you, now! "Greater things you shall do than I have done," spoke the Master of Eternal Love. He translated Himself. He said, "If I can overcome Earth." And you will overcome Earth the moment you come into cosmic consciousness let me say this to you. The moment that you find your way into a full degree of cosmic wisdom, all other things that you searched for in life shall be only as ashes to the Soul. You shall transmit your Karma through that Law you call "Forgiveness." You will extend and you will defy yourself mirrored back to you with the testimony of the motivation of your own eternal power. You shall stand, your body shall be woven by the Light only such as the touch of the hand. And if you have that attunement you shall walk with physical health, mental freedom, and spiritual insight.

So, the books that have been brought here across the countryside, that have been collected, will be read by many and they will be the testimonial and the preservative of the past. The dust may blow in but it shall never destroy a page. This valley shall never be touched with floodwaters. It shall only be extended through and become a part of the desert, a part of the landing place for man's future, a high place in eternal love.

And so, beloved ones, I do not believe that the necessity of questions is a concernment of you here. We only hope that we have verified within your Soul that from this valley will come the performance, the clarity and the demonstration of the Translation of mankind. This is the drama valley where it will be portrayed upon a lifetime of adventure. There is the allocated space. There is the right weather. There is the right degree of the Sun. There is the right assembly becoming, known as consciousness.

Mary Elizabeth Broscoff, will you please come forth? And as you stand before the Light, out of the bouquet of time

take a rose. This rose you shall keep, and with its blessing the next time you are in flight you shall drop its petals o'er this land. It shall testify to the fact that this particular land shall bloom through the glory of the heart of the rose. And that is the rose that is blessed by the hands, and its petals shall fall upon the land and it shall say, "Where cometh thou, you unto me? As the sands reached up to meet it, I did not grow this rose, but it will claim it as a part of it." Thank you, dear.

Now, when man dedicates himself to serve . . . alright, beloved Steven, you may go forth and take a rose. The petals of this rose are to be placed in a stream of water. They are to be sent out as a remembrance that from the high-way of life comes down the pools of time, the rose, to testify for man because at this time the symbolic of man is a rose. It signifies your love . . . it testifies to your Earth . . . illuminates you because the sunlight has caused it to bloom. And the great spiritual Architect has conceived it for your joy and your glory. Thank you.

Now, we will have from one of the books of the past. We possibly should have referred before this to some of the great scriptures of old. But, within the Bible of Time within the bible of tomorrow is concealed all the wisdom because consciousness is the sum total of everything that you shall ever know. And because you have incarnated into the beingness that because you are here. So too, beloved Master Merritt Albert Wilder, a rose to you, please. And this rose is to be placed back again in this room until it has no longer used, until it's bloom has faded from view. The petals will be placed in a book, and it will be written upon the date that they have shed their Light to men. And it will be kept as a marker of time until they too turn back to the Earth in which they came because all things resume the pattern of their normalcy, even mankind. Do you have the great testament at this moment, please . . . testament of tomorrow? We wanted to get Mr. Keeler's book out on his great magic healing art but it's somewhere located among the many. Today was the day to help man to help himself, to the greatest of all his gifts, the Cosmic Light. So, the Cosmic Light means harmony, so we will choose Chapter 88, today. Now relax in the reading of the Word as we will send this back to the Master Kingdom because you are entreating the Masters . . . true, to send back the power of eternal love to all of you. And as much as you give, shall be returned. We would like to see all your Lights so shine that we could give you the stamp upon your heart and your Soul and your mind, that you have earned the right. I do want to say here, I thank each of you that have followed the rules and the regulations of the Soul . . . that freedom shall be yours.

Note: The following is quoted from the Aquarian Gospel, Chapter 88, as read by Mr. Merritt Albert Wilder.

"Beside the sea of Galilee the Christine master walked,

and multitudes of people followed him. The fishing boats had just come in, and Peter and his brother waited in their boats; their helpers were ashore repairing broken nets. And Jesus went into a boat and Peter pushed it out a little ways from shore; and Jesus standing in the boat spoke to the multitude. He said, Isaiah, prophet of the Lord of hosts, looked forward and he saw this day; he saw the people standing by the sea, and he exclaimed, The land of Zebulon and Naphtali, land beyond the Jordan and toward the sea, the Gentile Galilee, the people were in darkness, knowing not the way; but, lo, they saw the Day Star rise; a light streamed forth; they saw the way of life; they walked therein. And you are blest beyond all people of the earth today, because you first may see the light, and may become the children of the light.

Then Jesus said to Peter, Bring your nets aboard, and put out in the deep, and Peter did as Jesus bade him do; but in a faithless way he said, This is a useless trip; there are no fish upon this shore of Galilee today; with Andrew I have toiled all night, and taken naught. "But Jesus saw beneath the surface of the sea; he saw a multitude of fish. He said to Peter, Cast out your net upon the right side of the boat. And Peter did as Jesus said, and, lo, the net was filled; it scarce was strong enough to hold the multitude of fish. And Peter called to John and James, who were near by, for help; and when the net was hauled to boat, both boats were well nigh filled with fish.

When Peter saw the heavy catch, he was ashamed of what he said; ashamed because he had no faith, and he fell down at Jesus' feet and said, Lord, I believe! And Jesus said, Behold the catch! from henceforth you shall fish no more for fish; you shall cast forth the Christine net into the sea of human life, upon the right side of the boat; you shall ensnare the multitudes to holiness and blessedness and peace.

Now, when they reached the shore the Christine master called to Peter, Andrew, James and John and said, You fishermen of Galilee, the masters have a mighty work for us to do; I go, and you may follow me. And they left all and followed him.

And Jesus walked along the shore, and seeing Philip and Nathaniel walking on the beach he said to them, You teachers of Bethsaida, who long have taught the people Greek philosophy, the masters have a higher work for you and me to do; I go and you may follow me; and then they followed him.

A little farther on there stood a Roman tribute house, and Jesus saw the officer in charge; his name was Matthew, who once abode in Jericho; the youth who once ran on before the Lord into Jerusalem and said, Behold the Christines come. And Matthew was a man of wealth, and learned in wisdom of the Jews, the Syrians and the Greeks. And Jesus said to him, Hail, Matthew, trusted servant of the Caesars, hail! the masters call us to the tribute house of souls; I go and you may follow me. And Matthew followed him.

Ischariot and his son, whose name was Judas, were employed by Matthew and were at the tribute house. And Jesus said to Judas, Stay your work; the masters call us to a duty in the savings bank of souls; I go and you may follow me. And Judas followed him.

And Jesus met a lawyer who had heard about the Christine master and had come from Antioch to study in the school of Christ. This man was Thomas, man of doubt, and yet a Greek philosopher of culture and of power. But Jesus saw in him the lines of faith, and said to him, The masters have a need of men who can interpret law; I go, and you may follow me. And Thomas followed him.

And when the evening came and Jesus was at home, behold, there came his kindred, James and Jude, the sons of Alpheus and Miriam. And these were men of faith, and they were carpenters of Nazareth. And Jesus said to them, Behold, for you have toiled with me, and with my father Joseph, building houses for the homes of men. The masters call us now to aid in building homes for souls; homes built without the sound of hammer, ax, or saw; I go, and you may follow me. And James and Jude exclaimed, Lord, we will follow you.

And on the morrow Jesus sent a message unto Simon, leader of the Zelotes, a strict exponent of the Jewish law. And in the message Jesus said, The masters call for men to demonstrate the faith of Abraham; I go, and you may follow me. And Simon followed him."

And beloved ones of wisdom, you were spoken for and you have followed. It is the story told over and over. And yet the story is still only in its infancy of time, because when the great voice reaches down to the valley and through what man speaks of as the spiritual loudspeaker of the soul, you will indeed be there with your "woofers" and your "woopers." You will indeed be there with your horns and your fiddles, and as of old you shall harken unto the voice, listening unto the fact. If the books of time were not brought together, the words and the messages of the past would not be renewed in your consciousness and you would not accept

the responsibilities that you know, now, have come as a gift unto you from what man speaks of . . . life ever new, life everlasting.

And so this is the moment for you to relax and to know that you are part of the future great show. You have been cast in the mold. Your part shall be played by you even as the Master of the Piscean Age played his part. The moments that you have, now into this eternal time shall be yours forever, and you will dine in the house of Cosmic Wisdom forever. Your bodies shall be translated through eternal knowledge. Your mind shall be received into the place of all-knowingness.

Bless you one and all. This is Dr. Ralph Gordon from the Fifth Plane and the Seventeenth Chair, relating the message that was brought forth through the High Command to you, this day. Now, if you will be still for just a few moments . . . any music that may be played . . . and I shall return my Channel. It will be just a little more difficult because, as you note, I am relating a message from the higher plane through me to her, through her to you."

DEDICATION OF QUIMBY COLLEGE

(Hierarchical Chairman) The purpose of this Light as so given, is to come into the dedication of the realization of a Master Hierarchical School built within the four walls of Earth, and so I shall allow, with the Great Light and the love, Dr. Ralph Gordon to speak, at this moment.

(Dr. Ralph Gordon) Alright beloved ones, that was our Hierarchical Chairman for the day--don't ask me his name because he asked not to have the name brought forth in order that it will be brought in later as the great flag flies over the College of the Mystical Science of man's hierarchical right. Naturally, it is a wonderful experience both for myself, the early students of this particular Center, for the later students of this particular Center, to come and know that fashioned in the minds and going clear across the ethers at this moment is the word, the signal that there has been a new birth created upon the Earth plane and it is known as a College of Hierarchical Truth. At this moment it is bearing the name of Quimby College of which we are in accord with, because many of the departments of the Quimby Light will phase out gradually, but the college will stand as its...its next denominational action in the Light, as it has gone up over the years, and it will carry on from where Quimby Center leaves off. This is a difficult thing, and possibly one of the things that all of you will understand. There will be a small group of the early members, as we have asked that the membership of Quimby Center be lowered to 100. They will remain until that 100 is dismissed from the pattern of the Earth, and then it will all be into the high light of Quimby College. Now, you understand what that means? There is a lot of work that has yet to go on in the great field of Quimby Center, because it has only done at this particular time, 81% of the action it was supposed to fulfill prior to the Aquarian Age, and if the Great Light so works and the Hierarchical School remains with us as they have been, the work that was provided for the Center has been completed. But the greatest glory of this completion, in a way, I am going to give as a star on the great high board of Spiritual Light to our Channel of Earth, because when nothing seemed as it could ever be, as many of you wonder at this moment, and erase that wonderment from your mind, anyone of you that are carrying it, that this college will not function because it is the Light of the Hierarchical School going on. Everything of Earth has to be...has its own particular name, and the name of the Hierarchical School is now enriched within the action of all of the Universal Schools, so attached.

Long ago, in fact, what was the Library Dedication beloved son, do any of you remember? (Answer: August 11, 1963 at 3:05 p.m.) Thank you. And, 1963, and that's how many years now? (Thirteen) Thirteen, and in those 13 years we told you that there would be like a new group of people in this valley. We told you the Library would become well known, as it is becoming well known. All the tradesmen in the field know something of Quimby Library. They

are not writing to the Center for books, because that has not been its purpose, but they are carrying the books under their arms graciously, and lovingly. It was one-time said that the Library would be the most known, and of course when the two years are up, 15 years that we allotted at that particular time, this great Library is going to become a part, beloved ones, of Quimby College and it is still going on. There are many actions of the Center that will have to be absorbed into the college. Many of the actions and so many of the staff will be absorbed into what the activity of the college will become, but only those who are truly dedicated to the Hierarchical Light will ever walk through its doors to teach. That has already been made by the Hierarchical Teacher, because it is a school where the Light, the interest, the soul interest in mankind's effort, is the Light. Now the college will go until possibly 2100 A.D. because at that time a great shifting is going to happen into the world, and many of the members of the Hierarchical School will come down and work on their own, because all of the Hierarchical teachers will have to incarnate and take up bodies in 2100. They will all just descend on the Earth. But what you do between now and then as an activator of this Light, is preparing the place for them to react and work out the problems of building a new Heaven and a new Earth. These words were not just loosely spoken scripturally. They are there as true representatives of that particular Light, and all of those who are not sharing in the total dedication, they can go on, and they will be, in their fundamental action, exactly.., if they are incarnated fortunately in 2100, and they will do and carry on exactly as now, so as I try to Bless my Channel and point out to her that this should not be a concernment, that they can all function back into their own particular place, but there will always be the Hierarchical School that will go on and teach in the name of the mankind, in the name of the Holy Christ, in the name of the Holiness that is within each and every one of you.

And so, in the dedication of this Library, it is dedicated to furnish as it was, that particular understanding, and cope, and build the books for the college. Every step that you have walked, every day that you live you are either building or tearing down for the greatest gift of all, your Soul's functioning on a higher plane. You are either building it up, or tearing it down; you are busy doing one way or the other. You are busy moving the old building and putting in the new, or taking the new, or taking the new building and putting it into the old. Now when we speak of you, to you, of the Hierarchical facts and action, you must learn to live upon the Faith, because one of the things that you have to carry through from the Piscean Age, is the 12 Powers of Man. They are a part of your graduation license. They are a part of carrying on into the college and the action of the now, as well as the future. If you do not depend upon this action of the 12 Powers of Man, then you might as well just sing a song of sixpence, beloved children of the Light, because that is the true essence; that is what you are reaching for to be able to teach and to partake in the college of tomorrow. And when a college is dedicated, we could have some glass of wine in here and throw it on the floor if you want to. It would probably not even

stain, if the Hierarchical Masters did it, they would probably rather use water. No matter if they asked you to stand on your head, the dedication of the college is what it is supposed to do, so let us ask ourselves what the new college is supposed to do for mankind.

Alright, number one. He is going to further his belief in the kingdom within him, and let him use the riches not through the work or the coin of the realm, but through the gift that he has within which is greater than all. That power that is within you is greater than in the world. That is the number one source that the new college will teach, the number one action.

The second action that it will teach is that all mankind, regardless of their location upon the Earth plane, has a sincerity to learn and willingness to serve if they are but asked. Now the Piscean Age has requested that man should ask, seek and know. But the teacher of the Aquarian Age is going to say, "You are the responsible one, you know and so you must...seek...seek out and bring them in. You go as Jesus said and look for the lost sheep of the Kingdom that are tortuous because they cannot, and have not found their way. Living in the New Aquarian Age is going to be much more difficult than living in the Piscean, so the second step is, you must seek your own.

Now, the third great essence of this Piscean and Aquarian Action, and this College of Tomorrow--the third thing is that the Soul must know within itself that it can function within itself for the benefits of it's life stream. It will not build on cheese cake, and I'm talking about "sexy" cheese-cake. It will not be, that will not be the function. The function of man's behavior will not be mentioned in the Aquarian Age because it will, it can never be if you are Aquarian Age students, it will never be doubted, neither will it ever be discussed. So, therefore, how are you going to put that in the books? You will not be concerned in the Aquarian Age at Quimby College with man's polarity, because his complete polarity must be, at this time, within himself.

Now the fourth thing that you must teach is the holiness of birth and how it is ranged. In other words the polarity of the sexual action must never be used only for reproduction, and this is one of the great things that the Aquarian Age will demand of you, at least, after 2100, because a whole new group of students will be reborn.

Now, I want to tell you, and this is not a part of the dedication, this is just my comment: I would like to say this to you, that you wonder how people are going off the Earth. Well, by 2100, most of the people in the present age will have passed into an invisible realm. Correct? And they will not be able to reincarnate because there will be no one that will accept them, so then, therefore, that is really what the world calls Hell. Jesus knew this. That they will not be able to reincarnate and come back and fulfill their action on Earth, until that Earth pattern comes back to where they left off. In other words, they

will not be able to come into the action of the Spiritual Light unless they are ready for it through the Law of Rebirth. Now, is there any question about this? Do you understand what I am saying, this is a comment that I have; I am not writing this into your college law. Does anyone have a question they would like to ask in reference to that?...I feel there is some doubting somewhere. Don't be afraid to ask. Alright, thank you for understanding.

Now we will go back. I think we are on the.../fifth/ action. The...[fifth]...action of the college will be reading and pursuing the writers that are established in the New Age that will bring forth in a continuous pattern the wealth of man's own inner knowledge. In other words all of the books that will be taught will be to...that will set the consciousness on fire for growth, further...and you see, growth in the Aquarian Age is going to be very, very rapid, and the books that will be taught will be only those that will set fire to the consciousness, that you feel that the students that you have in the classroom have not yet touched the tenderness of that particular Light, do you see. So you will have to have a pursuer of someone in a high enough Light, and they will come, because you are going to have many members of the Hierarchical School that will become a part of the college in the next...in two years from now. They will be highly enriched in their consciousness, and they will be able to pursue and carry on these particular dictates. Is that a dictate that you believe is proper and right? (Oh, yes.)

Now...The sixth pattern is very difficult for myself to understand but I guess it is possible due to the action in the college the staff must be always even, male and female. I would like to say to you that the greatest science teachers of tomorrow will be women. Men are falling short. The male mind is falling short on science at this time. Now it will not be science as you know science. It will be the science of man's fulfillment.

Now, I would like to say on the seventh point here, that we will live...I don't think we can call it...we must call it an electronic...we will come in...one of the degrees will be Electronic Consciousness, where it will penetrate and see through all things. Now this is not actually as the Christ Light, or Cosmic Light. It is the Electronic Consciousness. Now, how many of you could tell me what you would believe Electronic Consciousness could do? What do you believe, beloved Peter, Electronic Consciousness could do? What...if you had a consciousness as an electrical theory, what could it do? (Well you would have a very clear perception.) Yes. And the women of tomorrow are going to be the ones that carry it. Isn't that great! How many of you...dare I ask them? Beloved Patricia, do you see that, do you see that as a Truth? (Yes Sir, because you talked about it on my Karmic tape.) You see, I remembered pretty well didn't I? (Yeah.) But can you see the Wisdom of it as you have grown more and more. She thought we were hitting somebody else, she didn't think it was herself. And so it will be the Electronic Mind handled by the

female personality. So don't ever get an Electronic Mind in that is a male,...they...if so they'll...it will run amuck... isn't that a shame. Beloved Peter, but that you will understand, because in 2100 you will be very glad that they are doing it, because you have other things to do. Now, in the male action--now we are talking about the male and female action...one they are... yes, but the...the...male action will have to understand everything there is about the executive ability of...of making electronics work. They are going to bring it in, but the male has to prove that it will work. That's more fun anyway, because electronically you, of the female of the species, bless you, have to make up exactly how it is going to be built...how you are going to, how--let me ask you this, where do you think electronics is? Do you think...do you think that electronics can be in anything but in you, if you make the electronic instrument that uses it? Only now you are going to be an electronic being yourself, and you won't need to go out and put all these little wires together--red, white, and blue, green, yellow and pink. It is going to be some college isn't it?

Now, we are going up, and the greatest thing of all...and we are working very much because we believe that beloved Marya will be the one that will carry this on with her high dedication that she has received, the Hierarchical School has already dedicated her to work, and that is that she will bring forth all of the historical reasons why education must encompass the knowledge of the universe, historically speaking. (This is eight?) Yes, are we up there already? I am only supposed to give you nine.

Now where do you think you are going to put all that? /Ninē/ But you are going to do it in segments. There will be one year devoted to one thing, and the next year will be devoted to another thing, and you will devote it in all phases of the way. It will be taught, beloved Son...one person...it will be the same subject, but several people will teach it. Oh you will call it by many other names, and you will give it many other credits, but it will be all the same thing. Can all of you...can you as an educator understand that beloved Carmen. (Yes, I think so.) Can you see, Pat, how that is? Beloved Patricia...where one course will be studied? It will be divided up maybe into probably four classes, and every one will teach a different thing and receive a different credit. It will be called by a different name, but it will be the same thing. But you will each know different phases of it, how to pull it together...you really have...when you get through you will have full knowledge of what to do with what you have. And you will be able to go right out and use it. Now the business of tomorrow, of course the historical business, but the business in the Aquarian Age of the Brotherhood of Man, Fatherhood of God. When you get through school, you will be equal to every other person in the Universe. There will be no professors, there will be directors...yes...,but all of the knowledge...the school will become the New Age teaching, the Aquarian Age teaching will be where everyone that passes that first course, you will know whether they can go on, and if they can't go on, you must tell

them that they are not prepared and they can go back into another kind of work. You will probably send as many away from school as you take. Because this is a Hierarchical education. Now, we are not saying that all colleges are going to do this, but this is a Hierarchical education and anyone of the graduates of the Hierarchical School will be able to work in anything in this Universe if they want to. Can you understand that? Can you see it? Will you accept it as part of the dedication? (Yes) How about the rest of you? Will you, and you, and you and you? That's it.

And so, this is the way the Hierarchical School has brought it forth.

Now you may have to write the premises in slightly different language beloved Son, because we pulled it right out of the top drawer, to get the course underlined. But you can give...even learning to be a fine typist is a scientific thing, isn't it? Even learning to be...they all have great machines of reproduction, and you will be able to have a machine that...where you press a button and think your words, you will not even need to touch a key, you think your letter and it will type it, and all the copies will be made for distribution within a period of six minutes. But the greatest thing the college will do for mankind, is give him time to pursue his own order of enlightenment. It will teach him what he needs, but it will give him time to produce--to pursue it. And you will be, if it is...if it is as we see it now, it will be where you will wish that you had walked through doors, and probably will.

Well, beloved students of the Light, you came to Quimby Center ...I am Dr. Ralph Gordon, but I am only repeating the Hierarchical Message that was given to me and is on my tablet right here, and of course, it is very easy for my Channel to receive anything that I say, she will probably say, "What does that mean?", but she will go out and think it through until she finds out. And so, do not make, or do not feel that the education you have now is plain, or not interesting because the education tomorrow can get bore-some if you allow it to, but it is your mind that must never stop reaching out for a higher antidote, a higher test of giving, taking the knowledge and bringing it down into the surface of the Soul.

This college was a dream of Robert David Waterman and the Hierarchical School. They chose him to sort of forward it, because lots of times they have a difficult time understanding his dreams, and a lot of other people do too. But because he can dream in the ninth dimension--I guess that's fair--therefore, he can work in a ninth dimension school.

Now, there is other business to be handled, but I must bring my Channel back. This has been very trying for her. I have tried to intersperse the humor that sort of gets into the inner chambers of her heart, but this was a great hour, and a great sadness also, because...now remember and we will re-sum it: that Quimby Center will work and bring in all of the things that it has to do, and

then the...then it will work in the Library preparing and understanding the books that are coming in. There is much you have to do there, all of you as students, and then the third place will be the action of the college, and it has been the growth-- the growth of the Center has been the great root force under which the leaves have been shown to the Library and now the great trunk is going to reach the sky through the college. Many have given. Those who began in the first was almost international in scope. The Bundy's and the people who gave of their Light, who came and meditated hours to see that the Center could live. Palmer Gail Bundy who is reaching out to help in every way he can on the Inner Plane, Fred and Dorothea Taylor, Grace Bennett, Roy Van Hoosear, and all that have left since, and all that are scheduled to serve. They have lifted it up with their Herculean strength that this college should provide for the youth of tomorrow, a great freedom for the mind, unblocked by the tragedy of those that brought it into action. There is no death. Thank you.
